ABOUT THE UPPER SCHOOL MILLER CAMPUS

Gulliver Preparatory School, established in 1926, is a non-profit, independent, coeducational, nonsectarian day school serving approximately 2,200 students in grades PK-12. Gulliver's mission is to create an academic community devoted to educational excellence, with a personal touch, that fulfills each student's potential. Upper School at Gulliver Prep is a time of expansive exploration, deep nurturing, bold empowerment, powerful personalization, pioneering entrepreneurship, and intellectual freedom.

The Miller Campus was established in 1996, offering a comprehensive curriculum in a familial and nurturing environment to ensure personalized support. The Miller Campus effectively supports students who are on or above grade level and can navigate Gulliver's rigorous college prep curriculum. The close, supportive relationships that students develop with faculty members and counselors in this small environment foster resilience and enhance student well-being. In addition, faculty members blend traditional and innovative approaches to develop skills and mindsets, enable students to become strong critical thinkers, problem solvers, and independent learners, and inspire and empower students to reach their fullest potential.

EXTRAORDINARY OPPORTUNITIES AND A COMMITMENT TO INNOVATION

Students who attend the Miller Campus have room to explore a challenging array of unique elective choices, in addition to Signature Academic Programs and Advanced Placement classes at the Upper School Campus.

- Gulliver offers 32 Advanced Placement courses with an 84% pass rate.

By enrolling in six or seven courses per semester, our students engage deeply in meaningful academic opportunities in addition to their challenging core coursework.

GULLIVER AND COVID-19

In so many essential ways, Gulliver’s operations and functioning were spared the massive disruptions that impacted so many of our South Florida peer schools. We moved to fully-remote learning on March 13, 2020, and recently reopened our doors to blended learning on September 10, after starting classes remotely on August 20. We were able to maintain the integrity of our academic experience last spring with a lot of hard work and resources, and were able to get hotspots and other assistance to our kids who struggled with internet connectivity issues. We maintained our normal grading system, and did all we could to ensure that student performance in 2019-20 reflected the same rigor and range that would have been reflected in a more normal year. Our students were obviously heavily impacted when it came to SAT and ACT testing, as our area has been widely shut down since March for those tests, and it’s fair to say that the 2020 AP scores were also more varied than we would have expected for some students. Also, naturally, the stress of the pandemic has been immense for everyone involved: students, families, and teachers alike. For every student, there has been impact, often significant. As a whole, however, we have been fortunate thus far, and the transcripts of our seniors reflect an academic experience that is as “normal” as it could have been in such abnormal times.

MARKING SYSTEM & PROGRAM OF STUDIES

Academic Honors Mark: B+
College Recommendation Mark: C

100-97 = A+ = 4.33	96-93 = A = 4.00	92-90 = A- = 3.67
89-87 = B+ = 3.33	86-83 = B = 3.00	82-80 = B- = 2.67
79-77 = C+ = 2.33	76-73 = C = 2.00	72-70 = C- = 1.67
69-67 = D+ = 1.33	66-62 = D = 1.00	61-60 = D- = .67
59 and under = F = 0		

REQUIRED COURSES

Twenty-four credits are required for graduation and must include:

English	4 credits	World Languages	2 credits (3 preferred)
Mathematics	4 credits	Physical Education	1-1/2 credits
Science (Laboratory)	4 credits	Health/Life Management	1/2 credit
Social Science	4 credits	Fine Arts	1 credit

DESIGN OF CURRICULUM

The curriculum at the Miller Campus parallels the college preparatory track at the Upper School Campus. The classes provide a unique, supportive program of studies for students who benefit from smaller classes, ranging from eight to 12 students. Based on the students' academic strength, they are able to take anywhere between two and five classes. They attend the Upper School Campus for additional academic classes, Signature Academic Programs, and electives. Classes taken at the Upper School Campus are indicated as such on the Miller Campus transcript.

Advanced Placement: The Gulliver Preparatory Campus offers 32 Advanced Placement courses in all academic disciplines. Advanced Placement examination results for 2019 include:

Total Number of Exams:	773	AP Scholars:	34
Score of 5:	257	AP Scholars with Honors:	18
Score of 4:	232	AP Scholars with Distinction:	70
AP Pass Rate:	84%	National AP Scholars:	17

SIGNATURE ACADEMIC PROGRAMS

Architecture: The Architecture program prepares students for successful careers in architecture, urban planning, and industrial design. Learning 21st century future-ready skills, students research, create, design, and build. In addition to learning traditional drafting skills, students learn to design and build scaled models in physical and virtual space. Students become proficient in Building Information Modeling (BIM) and Computer Aided Design and Drafting (CADD) systems. Utilizing the latest BIM ArchiCAD software, students design and build in virtual space, creating renderings, animations, hypermodels, and VR export.

Biomedical Sciences: Biomedical Sciences is designed to provide a sound academic foundation for studies in fields such as medicine, biomedical research, and health sciences. Over the course of four years, students acquire biotechnology laboratory skills and develop a portfolio of transportable skills they can apply in a broad career landscape.

Digital Mass Media: Digital Mass Media provides application of real-world skills through student-driven experiences in the areas of broadcasting, video, print, and online media platforms. This interdisciplinary program offers students opportunities to work in fast-paced, team-oriented, and deadline-driven environments. Students will take their experiences beyond the classroom as they work on projects for both internal and external clients. In addition, students who complete the program will have the opportunity to obtain professional industry certification.

Engineering: The Engineering program helps prepare students for the 21st century workplace and leadership roles. Articulated through all grades, the rigorous project-based curriculum in science, technology, engineering, and mathematics (STEM) focuses on literacy, effective oral and written communication, group collaboration, and entrepreneurship.

International Business and Entrepreneurship: International Business and Entrepreneurship is an honors-level academic program that prepares Gulliver students to thrive at a rigorous undergraduate school. The program fosters the personal development of each student by nurturing intellectual curiosity, problem-solving, academic achievement, service, leadership, and interpersonal relationships. Students develop a stakeholder view of business that emphasizes sustainable ethical behavior and an understanding of the value that our future business leaders offer society.

International Diplomacy and Legal Studies: International Diplomacy and Legal Studies has been designed to provide students an advanced level curriculum that introduces them to careers in international diplomacy and law. This is a one-track program that culminates with a senior year capstone course. The International Diplomacy and Legal Studies program will also meet Gulliver's CORE (Community Outreach/Raider Experience) initiative by enforcing the idea that all politics are local. Students are required to plan and carry out a community service project that benefits their local community in some way. The program's main goal is to provide students with the skills and experience necessary to excel in a college level course while also helping them focus their academic interests before graduating high school.
