ABOUT THE UPPER SCHOOL MILLER CAMPUS

Gulliver Preparatory School, established in 1926, is a nonprofit, independent, coeducational, nonsectarian day school serving approximately 2,200 students in grades PK-12. Gulliver's mission is to create an academic community devoted to educational excellence, with a personal touch, that fulfills each student's potential. Upper School at Gulliver Prep is a time of expansive exploration, deep nurturing, bold empowerment, powerful personalization, pioneering entrepreneurship, and intellectual freedom.

The transition to Gulliver involves a highly personalized placement process, carefully designed to find each student's optimal environment, monitor progress, and ensure that they have the necessary support to achieve their academic goals. Our **EDGE Program** effectively supports students who are on or above grade level and can navigate Gulliver's rigorous college prep curriculum. The first three letters – Enhance, Develop, and Grow – represent the action behind these goals, and the final “E” communicates the end result: Empowered students. The hallmark of EDGE is the focus placed on organization, time management, and study strategies. These skills give students the opportunity to develop a better understanding of themselves and their own personal approach to studying and learning in a way that best suits them.

EXTRAORDINARY OPPORTUNITIES AND A COMMITMENT TO INNOVATION

Students who attend the Miller Campus have room to explore a challenging array of unique elective choices, in addition to Signature Academic Programs and Advanced Placement classes at the Upper School Campus.

- Gulliver offers 31 Advanced Placement courses with a 78% pass rate.

By enrolling in six or seven courses per semester, our students engage deeply in meaningful academic opportunities in addition to their challenging core coursework.

A DIVERSE STUDENT BODY BEFITTING A GLOBAL CITY

Gulliver Prep's student body represents more than 50 countries, and more than 25% of our students come from homes where a language other than English is spoken.

GULLIVER AND COVID-19

In so many essential ways, Gulliver's operations and functioning were spared the massive disruptions that impacted so many of our South Florida peer schools. We moved to fully-remote learning on March 13, 2020, and reopened our doors to blended learning on September 10, 2020, after starting classes remotely in August. Last year, we opened fully in-person, while enforcing mandatory mask use, and have generally been fortunate to keep our students safe. We were able to maintain the integrity of our academic experience with a lot of hard work and great resources, and were able to get hotspots and other assistance to our kids who struggled with internet connectivity issues. We maintained our normal grading system, and did all we could to ensure that student performance in 2019-20 and 2020-21 reflected the same rigor and range that would have been reflected in a more normal year. In 2021-22, we were back full-time in person, and managed to avoid any large-scale disruptions due to COVID. Our current seniors were less impacted than the previous two classes when it came to standardized testing opportunities. Naturally, the stress of the pandemic has been immense for everyone involved: students, families, and teachers alike. For every student, there has been impact, often significant. As a whole, however, we have been fortunate, and the transcripts of our students reflect an academic experience that is as "normal" as it could have been in such abnormal times.

MARKING SYSTEM AND PROGRAM OF STUDIES

Academic Honors Mark: B+

College Recommendation Mark: C

100-97 = A+ = 4.33	96-93 = A = 4.00	92-90 = A- = 3.67
89-87 = B+ = 3.33	86-83 = B = 3.00	82-80 = B- = 2.67
79-77 = C+ = 2.33	76-73 = C = 2.00	72-70 = C- = 1.67
69-67 = D+ = 1.33	66-62 = D = 1.00	61-60 = D- = .67
59 and under = F = 0		

REQUIRED COURSES

Twenty-four credits are required for graduation and must include:

English	4 credits	World Languages	2 credits (3 preferred)
Mathematics	4 credits	Physical Education	1-1/2 credits
Science (Laboratory)	4 credits	Health/Life Management	1/2 credit
Social Science	4 credits	Fine Arts	1 credit

DESIGN OF CURRICULUM

Students choose from a vast selection of rigorous academic offerings – more than 290 courses, including 160 electives and 70 world language offerings. Dual enrollment options at the University of Miami and other local colleges are available for students who wish to do advanced work and who have demonstrated exceptional academic potential.

Advanced Placement: Advanced Placement examination results for 2022 include:

Total Number of Exams:	607	AP Scholars:	30
Score of 5:	176	AP Scholars with Honors:	14
Score of 4:	150	AP Scholars with Distinction:	44
AP Pass Rate:	78%		

SIGNATURE ACADEMIC PROGRAMS

Architecture: The Architecture program prepares students for successful careers in architecture, urban planning, and industrial design. Learning 21st century future-ready skills, students research, create, design, and build. In addition to learning traditional drafting skills, students learn to design and build scaled models in physical and virtual space. Students become proficient in Building Information Modeling (BIM) and Computer Aided Design and Drafting (CADD) systems. Utilizing the latest BIM ArchiCAD software, students design and build in virtual space, creating renderings, animations, hypermodels, and VR export.

Biomedical Sciences: Biomedical Sciences is designed to provide a sound academic foundation for studies in fields such as medicine, biomedical research, and health sciences. Over the course of four years, students acquire biotechnology laboratory skills and develop a portfolio of transportable skills they can apply in a broad career landscape.

Digital Mass Media: Digital Mass Media provides application of real-world skills through student-driven experiences in the areas of broadcasting, video, print, and online media platforms. This interdisciplinary program offers students opportunities to work in fast-paced, team-oriented, and deadline-driven environments. Students will take their experiences beyond the classroom as they work on projects for both internal and external clients. In addition, students who complete the program will have the opportunity to obtain professional industry certification.

Engineering: The Engineering program helps prepare students for the 21st century workplace and leadership roles. Articulated through all grades, the rigorous project-based curriculum in science, technology, engineering, and mathematics (STEM) focuses on literacy, effective oral and written communication, group collaboration, and entrepreneurship.

International Business and Entrepreneurship: International Business and Entrepreneurship is an honors-level academic program that prepares Gulliver students to thrive at a rigorous undergraduate school. The program fosters the personal development of each student by nurturing intellectual curiosity, problem-solving, academic achievement, service, leadership, and interpersonal relationships. Students develop a stakeholder view of business that emphasizes sustainable ethical behavior and an understanding of the value that our future business leaders offer society.

International Diplomacy and Legal Studies: International Diplomacy and Legal Studies has been designed to provide students an advanced level curriculum that introduces them to careers in international diplomacy and law. This is a one-track program that culminates with a senior year capstone course. The International Diplomacy and Legal Studies program will also meet Gulliver's CORE (Community Outreach/Raider Experience) initiative by enforcing the idea that all politics are local. Students are required to plan and carry out a community service project that benefits their local community in some way. The program's main goal is to provide students with the skills and experience necessary to excel in a college level course while also helping them focus their academic interests before graduating high school.
